# 2024 PATIENT SAFETY SUMMIT

## PATIENT SAFETY IS PERSONAL

### John Hopkins Origin Story

Cheryl Connors, D.N.P., R.N., N.E.A.-B.C. | Johns Hopkins Armstrong Institute for Patient Safety & Quality

Our first speaker of the day Cheryl Connors will share with us the Johns Hopkins origin story of their Caring for the Caregiver Resilience in Stressful Events, or RISE, program that was born from the preventable death of 18-month-old Josie King in 2001. Cheryl has firsthand experience of that event as she was an RN on Josie's unit.

Following Cheryl's presentation, we will have a panel discussion with three of our members implementing the RISE program at their organizations. Learn through others' experience the challenges and benefits of implementing an organizational approach to caring for your caregivers.

View the video about this session [here](#).

### Medication Safety

According to the CDC, each year in the United States, harms resulting from medication use are responsible for more than one million visits to hospital emergency departments. What about medication-related risk that occurs in health care settings? Errors can occur along the complex process from prescribing to administration. Listening to our members' needs, the Summit will include an informative and engaging session around medication safety. A dynamic team of pharmacy professionals with Indiana connections will lead the session that will include interactive group think. View the video about this session [here](#).

### Courageous Leadership – Living a Life of Influence

Dan Meers | Kansas City Mascot, Motivational Speaker, Author, & Family Man

Dan Meers has been KC Wolf, the mascot of the Kansas City Chiefs, for more than 30 years. On Nov. 23, 2013, Dan came within inches of losing his life while practicing a bungee jump and zip line stunt at Arrowhead Stadium, home of the Kansas City Chiefs. What Dan anticipated being the thrill of a lifetime ended up being the spill of a lifetime. The stunt went terribly wrong and Dan plummeted 75 feet before crashing into the stadium seats. Miraculously, Dan survived. He spent nine days in the hospital and got some really big scars. Dan smiles when he says, "Scars are just tattoos that come with a cool story." During this powerful presentation, Dan shares his incredible story and the important lessons that he learned during his long road to recovery about leadership and about life.
