The Value of Hoosier Hospitals
Indiana hospitals provide impact and value well beyond patient care

174 hospitals care for patients and their families every day across Indiana. Hospitals are there 24 hours a day, seven days a week, to care for all. In addition to providing health care services, hospitals collaborate to improve patient quality and safety and reduce costs through 11 statewide patient safety coalitions and through federal and state grants. Indiana hospitals are some of the largest employers in their communities and are dedicated to providing world class care.

---

**Impact**

| Economic: | $39.1 billion¹ |
| Community: | $2.4 billion² |
| Employees: | 283,230³ |
| Nurses: | 59,538 |
