

For more information, visit cdc.gov/homeandrecreationalafety/falls

1. Talk to your doctor about your fall risk, medication side effects (like dizziness or sleepiness) and vitamins for bone health
2. Practice strength exercises to improve balance
3. Get an annual eye exam and update your vision prescriptions
4. Remove obstacles from your home that you could trip over

Every 20 minutes an older adult dies from a fall in the U.S., according to the CDC. Help prevent falls with these tips:

Get Up: Prevention of Falls
