340B Solutions

340B. Simplified.

Powering Compliance & Savings
SUNRx is driven to deliver 340B services and technology-related solutions for our clients that improve healthcare. We do this by providing superior outcomes to those we serve through innovative solutions, systems and services that provide transparency and promote choice in decision making.

SUNRx has been a leading third-party administrator since 2006, and today provides comprehensive 340B services for all types of 340B Covered Entities, including; federally qualified health centers and look-a likes, health systems, disproportionate share hospitals, cancer centers, sole community, critical access, and children’s hospitals.

These comprehensive services include split billing, contract pharmacy (retail, specialty and mail order), including referral claims capture functionality, plus the 340B industry leading, real-time uninsured 340B prescription discount card (cash) with robust sliding scale technology.

SUNRx fully supports compliance around duplicate discounts (Medicaid) for all Covered Entities to maximize their savings, optimizing their 340B program to best serve their communities and partner with all types of pharmacies. If you are experiencing pain-points with your current TPA, especially customer service, we invite you to speak with us at SUNRx.
Effectively Increase Your 340B Savings!

The SUNRx Split Billing System is a cloud-based tool which allows Covered Entities to create replenishment orders for outpatient and inpatient settings, and track purchases within the entire Pharmacy Supply Chain with easy to audit reports. With compliance in mind, SUNRx built its entire reporting suite around HRSA guidelines, working closely with clients to meet their needs.

SUNRx has identified tools unique to our clients’ needs giving them the ability to expand 340B savings without any additional work or costs. At the same time, maintaining a price that is among the lowest in the industry.

SUNRx Split Billing Features
- Fully customized web-based software
- Wholesaler and EMR independent
- Rapid implementation
- Creates split, replenishment, or alternate supplier purchase orders
- Verifies accuracy of price and quantity delivered
- PO Optimizer reduces the pharmacy drug spend by maximizing purchase discounts
- No hidden fees

Reduce Unnecessary Spend
Reducing WAC spend is a key goal of Split Billing. Our one-of-a-kind PO Optimizer tool assists the pharmacy buyer to reduce unnecessary spend, keeping pharmacy overhead costs low.

SUNRx provides the pharmacy buyer with alternative available and clinically equivalent NDCs from which to choose. This is accomplished by reviewing a client’s purchase orders line by line after being split in our 340B Split Billing System.

The PO Optimizer tool then provides the pharmacy buyer with a list of clinically equivalent alternative NDCs based on lowest available price and accumulations. The pharmacy buyer can make the choice to replace the higher cost NDC with the lower suggested NDC. Once selected, the pharmacy buyer would submit the PO back to the wholesaler to complete the order.

The SUNRx PO Optimization Process

340B Split Billing
Purchase order is split by our 340B Split Billing System

Review
Purchase Order
Orders are reviewed line by line

PO Optimization
Pharmacy buyer provided with list of clinically equivalent alternative NDCs

Pharmacy Buyer Decision
Pharmacy buyer can choose to replace higher cost NDC with lower cost option

Complete Order
Pharmacy buyer submits the PO back to wholesaler to complete the order

Don’t Miss Out On Capturing 340B Savings!

Every day, primary care providers refer patients to specialists. Because patients may be referred to specialists outside of your clinic, these Specialty prescriptions are not routinely captured and require setup.

When the patient goes to the referred specialty provider, this can result in a new line of medication therapy. These prescriptions can include Humira®, Enbrel®, Otezla®, Sovaldi®, or Skyrisi®, to name a few. Don’t miss out on compliantly capturing the 340B savings from these prescriptions.

SUNRx Partners With You In This Process

SUNRx provides a Referral Capture solution allowing clients to capture referral prescriptions. Our process in coordination with your policies and procedures allows you to capture these prescriptions.

With proper procedures in place and a partner that understands the referral process in 340B regulation, you can capture these prescriptions and render savings to your Covered Entity. SUNRx account executives will train and work closely with your staff to realize these savings, which can be significant.

HOW MANY REFERRALS DO YOUR PROVIDERS SEND ANNUALLY?
Advanced Claims Capture

Take Referral Capture a Step Further

We’ve teamed up with AuthorityRx (ARx) to offer our Advanced Claims Capture service which can significantly increase 340B savings through enhanced referral claims capture and by uncovering and resolving those fallout claims that can be subsequently confirmed as 340B eligible.

Focused On Compliance
Advanced Claims Capture is designed with compliance in the forefront. As part of an annual independent audit, we review your program and work to appropriately capture additional savings in compliance with your 340B program.

Reviews and Appropriately Resolves Claims from Fallout Report
Advanced Claims Capture can increase savings by uncovering and resolving fallout claims.

Service Organization Control (SOC) 2 Certification
SUNRx and ARx are SOC 2 certified. The SOC 2 (Type 1 and 2) audit is a rigorous process to ensure high data security levels. Patient and switch data entrusted to ARx is housed in a secure environment with high data processing standards.

No-cost Annual 340B Audit
Stay compliant, save time, money and resources by utilizing our no-cost annual 340B audit.

Experience and Expertise
We keep you up to date with customized program recommendations to your policies and procedures which may eliminate the need for extra operational resources.

Speedy Implementation Time
Realize additional savings potential with a quick implementation and no need for additional software.
Specialty pharmacy may be complex, but as the specialty pharmaceutical industry continues to see growth, there may be opportunities for significant savings to your 340B program. SUNRx can help you navigate the complexities and opportunities in 340B specialty pharmacy.

**Network**
Our experience in pharmacy data analysis and contracting allows us to guide you through the contract pharmacy process, delivering a specialty pharmacy network that maximizes your 340B savings.

**Expertise**
Our advanced operational and technological capabilities can be customized to support the wide variety of pharmacy and wholesaler requirements in navigating specialty and 340B.

**Compliance**
We understand each CE type and can manage the compliance, referral capture and operational parameters to create a custom fit for your 340B program that will render a higher capture rate.

**Program Customization**
Through a drug-by-drug strategy, we can expand savings with a toolkit designed to help you gain access to medications for your 340B program.

**Dedicated Partnership**
As an experienced and transparent resource, we are here to support you in building a successful 340B program.

**Why SUNRx**

**340B Specialty Expertise**
SUNRx has unrivaled expertise with specialty contract pharmacy and understanding the drug-specific nuances for specialty expansion within 340B.

**Split Billing Solutions**
SUNRx Split Billing platform can support your needs for specialty therapies.

**Customer Service**
SUNRx tailors our approach to each Covered Entity’s unique needs. We offer dedicated, high-touch support, to optimize your 340B program and answer questions.
SUNRx is committed to providing quality, high-touch customer care and support. We partner with our clients to effectively manage their 340B programs, provide in-depth training, and communicate program results and performance.

Our account management team has the knowledge and expertise to assist clients with 340B compliance, rules and regulations. The SUNRx team also includes a business solutions specialist who assists with any technical or data-related scenarios.

Together, our customer support team works to optimize client settings within the SUNRx platform to help support any 340B program.

* Client Satisfaction scores reflects 2020 results.
340B Prescription Discount Card

Significant 340B Savings and Compliance

Safety-net hospitals and healthcare centers provide services for the uninsured. These uninsured patients can have a significant impact on the facility’s bottom line. Much of the uncompensated care can be minimized with programs like providing medications at no or low cost.

One of the intents of the 340B program is to pass along savings to the uninsured. This can be done with no additional cost to the healthcare facility. Plus, to minimize risk of non-adherence, the program can help ensure that the vulnerable populations are getting their prescriptions filled.

A prescription discount program for the uninsured can deliver medications at significant discounts. These savings add up, the average annual savings to uninsured patients can exceed $1 million. These savings can also be applied towards the hospital/healthcare center’s community benefit report.

Card Benefits

- Lowest price on medications is below 340B pricing 50% of the time
- Hospital/healthcare center can subsidize
- Cards are provided to the uninsured patients by the hospital/healthcare center staff
- Reduce the risk of Medicare readmission penalties
- Reduce the risk of higher Charity Care costs

How the Card Works

1. Patient goes to their provider
2. Provider writes prescription
   Office staff prints SUNRx prescription discount card and gives it to the patient with their prescription
3. Contract Pharmacy
   Patient takes their prescription and SUNRx prescription discount card to the pharmacy
4. Claim adjudicates in real time
5. Patient pays pharmacy the lowest price available for their medication
