

# Indiana Patient Safety Summit

2019 PATIENT SAFETY SUMMIT | JUNE 4 | EMBASSY SUITES BY HILTON, PLAINFIELD

## *The Patient Safety Summit: A day to focus on what matters most*

The Indiana Patient Safety Center (IPSC) was founded by the Indiana Hospital Association with the ambitious goal of making Indiana the safest place in the world to receive care. For the past decade, IPSC has led Indiana's hospitals to collaborate on quality and patient safety, encouraged the implementation of evidence-based practices, and forged the nation's most comprehensive network of patient safety coalitions. The Summit brings together patient safety and quality leaders to learn effective strategies and share best practices that will improve patient safety statewide.

**Audience:** CEOs, CMOs, CNOs, patient safety officers, risk managers, quality leaders, nursing caregivers and managers, case managers, care transition managers, infection preventionists, pharmacists, and others responsible for patient safety and leading change for improvement

### *Featured Speakers*

**Eva Kor**

*Holocaust Survivor and Motivational Speaker*

For the past 40 years, Holocaust survivor Eva Kor has shared her story with students, teachers, medical professionals, senators, administrators, historians, university groups, graduating classes, and civic groups, both nationally and internationally. Eva is one of the few surviving twins sharing her personal account of the medical experiments supervised by Nazi doctor Josef Mengele at Auschwitz. Eva's account of her survival of the Holocaust offers many relevant lessons on the dangers of hate and prejudice, and the consequences of allowing prejudice to persist, unchecked, in others.

In addition to the importance of her account from a historical perspective, Eva's life lessons and message of forgiveness have touched the lives of millions of people. In 1995, Eva chose to forgive the Nazis, after deciding that they should no longer have power over her life. She describes forgiving the Nazis as an act of self-healing, self-liberation, and self-empowerment; forgiveness is not about the perpetrator, not about forgetting. It is one step toward repairing the world by helping victims free themselves from perpetrators and remove anger and hatred.

Recipient of the 2017 Sachem award, Eva's message of healing reaches around the globe and across social, economic, cultural boundaries.

*"I believe with every fiber of my being that every human being has the right to live without the pain of the past."*
